 *Freight areas apply, refer delivery area map.

DELIVERY CHECK LIST

Please circle Yes or No. All questions are mandatory

1. Date the customer ready to receive delivery? / / (Delivery is scheduled between this date and the current production lead time. For current delivery lead times, please refer to weekly email updates, or refer to digital order form)

I acknowledge that should I require the delivery to be rescheduled, a rescheduling fee of \$350 will be incurred. (Fee is not applicable for reasons outside of your control, or receipt of prior notification of new ready date.)

2. Is the site prone to flooding or bogging? **Y / N**

3. Is the road access from main road to tank drop off point suitable for low clearance (150mm) truck **Y / N**
 (if not please advise of an alternative delivery drop location) _____

4. Are there any overhead obstructions. ie. wires, low tree branches, structures etc. 5.5m height clearance and 3.5m width clearance required **Y / N**
 (if yes, please advise of an alternative delivery drop location) _____

5. Please select **one** of the following options regarding truck access on your site

- Sufficient space for truck and trailer to turn around (19m long with 60mtr turning circle)
- Truck only delivery required (9mtr turning circle)* Conditions apply
- Truck can not access site *Please contact customer support to further your order 1800 554 847

TANK FITOUT

Refer to catalogue for standard fit out inclusions

6. Does the order include a DP619 (25,000Ltr) tank? **Y / N**

If you answered yes, please advise where you would like the outlet to be positioned.

Please note the inlet is located at 12 o'clock (please refer to the diagram below)

SPECIAL REQUIREMENTS / OPTIONAL EXTRAS

DISCLAIMER:

The driver will get as close as they can to the drop off point and will place the tank within 1-2m from the truck. Please note that site attendance is not required for delivery as driver will unload without assistance.

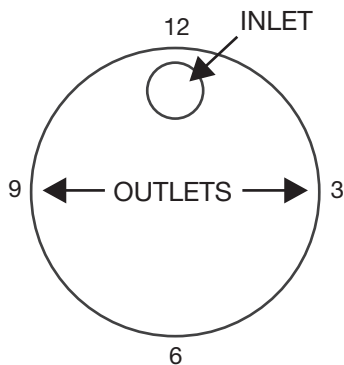

NSW Customers:

Should your order include a 32,000Ltr tank, the site access must allow for Truck and Trailer access, as these tanks can only be delivered on our Trailer due to size and weight.

QLD Customers:

Please be advised that due to QLD NHVR height restrictions of 4.6mtr, the following tanks are unable to be transported on TRUCK ONLY:
22,500LP Crown Force, 22500-S Orbspan, 27000 Crown Force and 32,000 Ltr
