

## IT Systems Development & Support

Due to our growth and increasing technology use, Rapid Plas is looking for a full time IT Assistant to join our team. This role offers a wide range of activities and challenges.

### Key role functions include:

- Application development and maintenance, mostly using Microsoft technologies
- SQL database maintenance and SQL coding for data storage and extraction
- Reporting, dashboards and data analysis
- Website integration maintenance
- IT support (including printers, PCs and networking) as required
- Evaluate and implement new digital systems and projects
- IIOT - data collection and management from industrial machinery

### Key interface:

This role will support the IT & RD Manager, and interact with staff across the organisation

### We are seeking people that have:

- Demonstrated prior technical training coupled with experience
- Knowledge of computer networking systems and computer hardware is essential
- Competent, current and solid IT skills and understanding
- Attention to detail
